SUPERTRAX SCT PREMIUM CABLE

FYNE ADVICE

ESSENTIAL INFORMATION

THANK YOU for investing in this carefully crafted accessory, hand made in our factory in Scotland.

CAUTION:

- This cable is delicate- do not bend excessively.
- When unplugging, always grip the plug and not the cable.

INSTALLATION:

- This cable is directional- the arrows should point towards the SuperTrax super tweeter.
- Connect to the terminal panel on the rear of your loudspeakers. If provision for bi-wiring is made, connect to the HF terminals.
- If a grounding terminal is available, this should be done via the central wire.

SPECIFICATION:

- Nominal length - 1.5m (standard cable)
- Cryogenically treated

WARRANTY:
